

TITLE: Bring Your Own Device (BYOD) Policy

ORGANIZATION: Northwind Analytics, Inc.

DEPARTMENT: IT

SENSITIVITY: Internal

VERSION: 1.4

EFFECTIVE_DATE: 2026-04-01

Bring Your Own Device (BYOD) Policy

This policy governs the use of personally-owned mobile devices (smartphones, tablets) to access Northwind Analytics, Inc. email, calendar, and approved business applications.

1. Eligibility

BYOD access is available to full-time employees in corporate and IT Services roles requiring mobile email access. It is not available for roles with access to manufacturing OT systems, production data, or Restricted-classified information, per the Data Privacy Policy, which must use company-issued hardware only.

2. Enrollment Requirements

- Device must be enrolled in the company Mobile Device Management (MDM) platform before accessing any corporate data.
- A minimum OS version (current major release, minus one) is required; MDM will block enrollment of devices running unsupported OS versions.
- Device passcode/biometric lock and remote-wipe capability must be enabled.

3. Data Handling on Personal Devices

Corporate email and documents are contained within an MDM-managed workspace, separate from personal apps and data. Copy-paste and "save to" actions from the managed workspace to personal apps are disabled by policy.

4. Loss, Theft, or Device Replacement

Employees must report a lost or stolen enrolled device to the IT Helpdesk within 4 hours of discovery. IT will remote-wipe the managed workspace (not the entire personal device) immediately upon report.

5. Offboarding

The managed workspace and all corporate data are automatically removed from enrolled personal devices upon termination of employment or contract.

6. Contact

BYOD enrollment support: it-helpdesk@northwindanalytics.example.com, or the IT Service Portal under "Mobile Device Enrollment."
